## Vision

We pride on quality and performance. The sole vision of the company is to deliver products and services conforming to international standards and satisfying the requirements and the expectations of our customer in respect of quality, cost, performance, safety and reliability.

## Mission

We strive to create a corporate entity emblematic of excellence, diversification and pioneering new technologies backed with customer satisfaction.

## History

We started manufacturing Handles in **2009**, we understood the importance of innovative design and an uncompromising commitment to craft and quality. **Wel - Set** Offers a superior selection of Cabinet Handles, Conceal Handles, Main Door Handles, Knob, Kadi, Aluminium Cabinet Handles, Aluminium Glass Door Handles, SS Door Handles, SS Butt Hinges, etc. with accumulated rich experience of good quality control and quality assurance.

We are a way of understanding decoration and the difference that an accessory can make. Behind of our products there is a lengthy process of creation which starts when the design team presents their idea and ends at the moment when the Handles is fitted in its final surroundings.

## Quality

We are even more demanding than our customers. Responsibility, quality and rigour are present in all stages of production and service. That why we apply processes of quality control which help us to improve and be better than we were yesterday.

Above all, our priority is quality. Quality in the production process, in each detail of our products, in the service we offer, in our management and in everything we do. We want to keep to our clients satisfied. the ISO 9001 certificate demonstrates this. We are proud to have achieved it and it offers guarantees for our customers.

An ISO 9001:2008 Certified
